Grants & Scholarships

 **CA-AFCS**
CALIFORNIA ASSOCIATION OF
FAMILY & CONSUMER SCIENCES

HISTORY

Generous donations from past state and district presidents of the California Association of Family and Consumer Sciences (CAAFCS) provided the initial \$10,000 allotment for the Extended Education Fund, commonly known as the Grants and Scholarships Fund. Over the years, the Fund has increased due to the continued donations from members of our profession and careful investments of the funds.

Purpose

The primary purpose of EEF is to provide student scholarships and grants.

- ◆ \$1,500 scholarships are available yearly for an FCCLA high school senior, an FCS teaching credential student, and several California undergraduate and graduate students of FCS programs in community colleges and universities.
- ◆ Grants support innovative projects critical to the advancement of CA-AFCS and/or priority issues relating to research, public awareness and growth of the profession. Proposals can be funded up to \$2,500 for projects to be completed in two years. Also professional development grants are available for new officers/leaders of the association.

DONATIONS

Contributions are generally tax deductible. Designated estate gifts and donations from IRAs can be made. Naming this

Fund in your will or trust is also a wonderful way to show appreciation for your association. Consultation with a trusted tax advisor is recommended.

A Recent Grant Recipient Said:

With my grant, I was able to start community building with university student parents and discussions for college success. This often silent group of students make up 25% of the population on our college campuses and need our support and their voices heard. This grant was instrumental in my work with this amazing group of students!
